No official corroboration of the war rumors has been received. In fact, it was stated at the Foreign Office that no communication had been received from the Far East for two days. In some quarters this was held to be a good sign, but, on the other hand, it is remembered that this British department was left without news just prior to the Boxer outbreak in China.

All London papers display prominently news bearing on the Far Eastern situation, and several print articles descriptive of the relative strength of Japan and Russia. The Daily Telegraph follows a tabulated statement of.

(BT THE ASSOCIATED PRESS—A.M.)

WASHINGTON, Oct. 12.—Aside from extensive military preparations by both nations, the Japanese legation here is not advised that either Russia or Japan has as yet committed any act of war. The Japanese Minister is kept constantly advised by cablegrams

founded rumors regarding initiary and naval movements in certain quaranters, but, in his judgment, the intelligent section of the Japanese public has been generally calm and collected up to the present juncture, as it knows that the matter has been for some time in the hands of responsible parties of Japan and Russia, and that they have been negotiating with a view to arriving at an understanding between them. For his own part, Mr. view to arriving at an understanding between them. For his own part, Mr. Takahira said, he hopes for the best, because the situation is not without indication so far that the Russian government is candidly disposed for a settlement of the question with Japan, and therefore so long as the negotiations are proceeding with reasonable prospect of a result honorable to Japan, there is no reason to be overanxious now."

As has often been pointed out, the As has often been pointed out, the United States has no cause of protest because Russia has failed to keep her piedges that she would evacuate Manchuria on October 8. The interest of the United States in Manchuria is covered by the recent treaty between China and this country. If Manchuria becomes annayed to Pre-

churia is covered by the recent treaty between China and this country. If Manchuria becomes annexed to Russia, or continues under Russian control, the United States will insist that the provisions of the treaty be carried out, especially as Russia assented to its provisions previous to its signing.

It is believed here that an understanding exists between Germany and Russia in regard to operations in Manchuria, and that no protest nor even disapproval will be expressed by Germany over any course Russia may pursue in China. France is apparently disinterested and Great Britain is thought to be the only country that is vitally interested, and opposed to the course of Russia in Manchuria. It is said that nothing has been received here indicating that an announcement has been made by the Russian government that the treaty between Russia and China has lapsed, but that it is evident that it has lapsed because the date for the evacuation of Manchuria has passed, and the terms of the treaty have not been compiled with, and because the treaty would have naturally lapsed in such an event.

SPOTS ON THE SUN.

Observer Estimates that the Disturbed Area Covers a Total of Five Hundred and Fifty Million Square

WASHINGTON, Oct. 12.—[Exclusive Dispatch.] Two photographs of spots on the sun were taken last week by George A. Peters, who is in charge of the photo-biograph of the Naval Observatory. The photographs were taken October 5 and 7, and show a great group of spots, the largest observed for many years. Cloudy weather made it impossible to take another photograph. The group is sufficiently large to be seen with a naked eye protected by a smoked glass. It is estimated roughly that the disturbed area of the sun's surface is about 110,000 miles long and 10.000 miles wide, with a total area of \$50,000,000 square miles. The photograph first taken showed a group of spots in the eastern limit of north latitude. At that time a part of the enormous group had not come into view, and one of the spots appeared like a large notch on the euge of .as sun. October 7, however, this group had come plainly in view, and was seen to be composed of about a dozen spots, some of them large and in close conjunction with each other. In past years, it has been observed that sunspots are most numerous once every tweive years. During this period there is a maximum and minimum number of spots. The last minimum period came in 1901.

The appearance of this large group of "spots," it is thought, forecasts the approach of a maximum comparatively sharp, while the decrease in number is marked by a more gentle curve. WASHINGTON, Oct. 12.-[Exclusive

(BY DIRECT WIRE TO THE TINES.)

NEW YORK, Oct. 12.—[Exclusive Dispatch.] Mayor William C. Maybury of Detroit, who is now serving his fourth term as executive of the Michael Markenells and the Hoffman igan metropolis, is at the Hoffman House. On his way East, Maybury halted at Washington, and paid his respects to the President, and though a stalwart Democrat, he asserts that he is very fond of Roosevelt. Said Mr.

"If I might be governed solely by my personal regard for the President, and without reference to the party principles to which I am committed, I could easily vote for him. The courtesies he extended to the friends who accompanied me to the White House, and to me, personally, were of an exceptional order, and such as I could not fall to Asked as to the probable nominee o the Democrats in the national conven-tion, he said: "The present outlook is that Senator Arthur Pue Gorman of Maryland will be nominated, and he

Will make a strong candidate."

Concerning the Municipal League Convention, in which he was chairman of the Committee on Resolutions, the Detroit Mayor said:
"It was not so largely attended as some of its predecessors, but the personnel was important, discussions most intructive and the interest was very great and good must result from the discussions and interchange of opinion."

ARDEE APPROVES FINDINGS.
[BY THE ASSOCIATED PRESS-AM.] SACRAMENTO, Oct. 12.-Gov. Pardee today made public his, findings on the report of the investigating committee which inquired into recent scandals in the Southern California State Hospital for the Insane. The Governor addressed his communication to the Board of Managers, and compliments them upon the thoroughness of their investigation. He remarks that many of the charges of cruelty and maladministration originated with discharged employes, and he takes occasion to say that while he believes occasion to say that while he believes evidence of the character should not be disregarded, nevertheless, he holds that it should not be accepted without corroboration. He fails to find the charges of cruelty upon Rev. Dr. Plannette, an inmate of the asylum, were sustained by the evidence. He expresses the belief that the care of the insane calls for the utmost tact upon the part of physicians, and he recommends the dismissal from the service of the hospital of any physician who, in the opinion of the hospital managers, is not efficient in this or other respects.

SOLVES A MYSTERY.

SAN FRANCISCO, Oct. 12.—(Exclusive Dispatch.) If the Burlington interests are behind the Western Pacific, the mystery that has been as source of wild speculation in railroad circles for many months has been explained. Up to the present, well-informed railroad men and the public have agreed with one accord that Gould was behind the Western Pacific. The railroad map of the country between Missouri and the Pacific seemed to offer convincing evidence that only the Gould system could be responsible for all the industry that has marked the Western Pacific's operations up to the present time, and other evidence has not been wanting to prove that Gould was furnishing the provential interests of the system. After many seasons of French farces and other so-called comedies, "Charley's Aunt" still remains the funniest of them all. The immense audience at the Burbank on Sunday night frequently arrested the action of the play by its prolonged roars of laughter. As, the bogus aunt from Brazil—where the nuts come from—Howard Russell does some good work. New Fall Modes in Tailor Made Suits.

THE NEW LONG COAT SUITS for Fall and Winter are the most rational and graceful styles that have yet been evolved, and while the cut of all are on the same general lines, the opportunity to individualize each particular suit has been taken advantage of. There are so many new materials and effects that it is a very simple matter to
find a style particularly suited to every figure. It is no wonder, therefore, that the women
of today are depending more and more upon the leading style stores for their eleverthings in preference to the individual designer. It stands to reason that the opportunity
to select from the eleverest ideas brought out by several hundred celebrated designers is
better than accepting the styles offered by one. And there is another distinct advantage
to be gained—it is very much more economical.

OF COLUMBUS HOLD ANNIVERSARY SERVICES.

Impressive Oration Delivered by Bishop Conaty on Christopher Columbus-Capacity of Cathedral Taxed to the Utmost-Musical Features.

There was one other question of absorbing interest, viz. "Which side of the high chool is, the back side?" There were contentions for all angles of the brick building on the hill, not even excluding what is obviously the fount. It was to the interest of the board to find out once and for all, and opinious of all sorts were freely forthesming. Somebody thought he had arrived at the solution by saying that the said next the graveyard was the see next the graveyard was the see in question, and this definition stucks will k was icarned that there were traveyards to right of them, grave-graves, graves of Odd Fellows and graves of deceased persons who were not odd. The board was famped until Prof. Housh, who had taken no bovious truism—that the westing levels of its programme was in charge of Joseph Scott, who is a high State official of the order.

There were present at last night's smithing Page, Hammon, Builfinch, Eilling Geodhue, Thom and Jessup. There were present at last night's method to the Cathedral, occupying in the cathedral on Main street, by the local lodge, Knights of Columbus, 250 strong, and their friends, the total attendance completely filling the scating capacity of the big auditorium. In everging the seating capacity of any size in the Union the occasion was commemorated last night in like manner.

Rt. Rev. Bishop Conaty delivered the principal speech, and Father Harnett, the vicar, conducted the vespers service. An orchestra discoursed excellent music. The programme was in charge of Joseph Scott, who is a high State official of the order.

Beginning at 8 o'clock, the local lodge of Knights in full force marched from the hall to the Cathedral, occupying reserved seats after the opening song.

The families of many of the Knights were present. The feature of the celebration was the address of Bishop Conaty, who took for his theme, "Christopher Columbus," the great Geneese for whom the leading Catholic fraternity was named. In well-chosen diction, and with an impressive earnestness of delivery, Bishop Conaty sketched the career of the discoverer of America from his humble origin to the achievement which emblazoned his name on the pages of history, drawing therefrom a lesson in tenacity of purpose. The bishop's remarks elicited frequent and continued applause.

Joseph Scott in his usual forceful style spoke of the order, its past and future.

The Knights of Columbus form one of the strongest secular orders in the world, being essentially Catholic in their beliefs and forms. They have a lodge in every large city in the courtry, and last night's celebration was one of their most carefully-observed occasions.

Rockers for the modest home; rockers for the mansion; rockers to meet every taste, every requirement. Every wanted sort from the simple but substantial cane and saddle seat rockers up to the most luxuriously upholstered affairs in exquisitely carved mahogany. Reproductions of the old Colonial designs in solld/mahogany, with flag seats, and the weathered and fumed oak rockers upholstered in Spanish leather, deserves apecial mention, as recent arrivals make the present showing by far the most extensive to be seen anywhere in the West.

It was not over until the numbers were hung up, and even then a lot of people sitting out of line of the wire thought the fast-coming second-choice horse. Fox Lake, would be given first money.

The crowd was almost as large as on SECOND RACE

The crowd was almost as large as on the opening day. The starting was ex-cellent, with the exception of the fifth cellent, with the exception of the fifth race, and three-heavily-played favorites landed the public money. Ordinarily this luck would not break many holes in the bookmakers' sacks, but yesterday these winning favorites were supported

the bookmakers' sacks, but yesterday these winning favorites were supported so strongly by the sports that it can be safely said that the big majority of them went home feeling very good over their wisdom in getting down right.

The biggest plunges were on the Blassingame entry in the Jonathan Club stake and Grail in the last race. It was a sight to see the money pouring in on these favorites, for the big betting place was packed with men who handed up their money as wildly as if they had been drawing it out of a shaky bank. They wouldn't be denied Grail and Dr. Rowell, and they put in so much coin that the books cut the Rowell odds a trifle under the deluge. Those who went down wrong on the other races seemed to make it up on these two, and the only ones to suffer were the pikers who persisted in throwing their money at the long shots.

To the surprise of many the harness race was cut out of the card, all of the four entries scratching out except Rexie, who took the race as a walk-over. It was probably just as well, for the dashes are more exciting, and the harness race on Saturday proved such a hot potato to those whose money was put on a favorite that was distanced in the first heat, that many of them were tickled when the harness event was dropped.

The Jonathan Club stake for two

JONATHAN CLUB STAKE. rear-olds at five and a half furious, brought ten starters to the post in Dr. Rowell, Fox Lake, Miss Bowdish, Eva D., Eugenia B., Potrero Grande, Sol Smith, Flea, Annie Marie and Pat Bulger. Rowell and Miss Bowdish were made favorites, coupled in the betting at 6 to 5 and even. Fox Lake and Sol Smith were also coupled at evens. These stables received the bulk of the money bet, although Eugenia B. and Annie Marie were nibbled at for place and show. As the race showed, Rowell and Fox Lake were the only ones really in it, although Miss Bowdish hung on garnely in third place and easily beat off those behind her. At the break, Miss Bowdish and Dr. Rowell were second and third to Sol Smith, and the others were bunched behind. At the half mile Dr. Rowell had raced into the lead ahead of his stable companion, and Fox Lake came up from fifth place and was third. From there on it was just these three in the race. At the three-quarter pole Fox Lake had skipped past Miss Bowdish and was making a determined bid for the flying Rowell. He

If President Roosevelt had strayed into Fiesta Park yesterday afternoon he would have viewed a bit of "strengenguous life." Several dozen-young men in football suits were wrestling desperately with a new rule of three com-bination in which an egg shaped ball, excessive heat with attendant dust, and a small, but very energetic coach were noticeable factors. It was hot enough to explode eggs; the dust was of a powdery, impalpable consistency that shortened everybody's wind, and the little coach was unrelenting-he

There are a number of excellent men in sight; as yet nobody's job is sure, but when the seazon is w'll on I think the team will be strong everywhere. The candidates all have the right spirit, and that helps a lot. They are a little to the bad on taking the ball; want to use their hands too much and their bodies not enough. The season is fast drawing to a close and the local fans can view the coming pennant with the feeling that it has been won on merit alone and not by any partial decisions of the umpires, as is too often the case. Many people thought at the beginning of the season that the combined influence of the northern teams would be used to keep the pennant from coming to this city, but whether or not this was used made little difference, for the Los An-

TO OUR CLIENTS:

We beg to thank those of our friends who so liberally and promptly subscribed to the special offering of stock during the first day it was put on the market, and to notify all those thinking of accepting this offering that there are only eight days more in which to secure these shares at the special price of 15 cents (par value \$1.)

After providing for absolute necessities, the most important problem connected with the affairs of this world is how to use money to advantage. This is the most difficult problem which every man has to solve for himself, because it involves the whole science of material success.

The investment of a few dollars in the stock of the Pacific Pure Food Company, which manufactures Sunshine Cereal Food, Sunshine Bread, Sunshine Crackers and other pure food products, a company dealing in necessities, is an investment of the highest class, being stable, profitable, and appealing to the people through the very necessities of life, and while we do not urge you to make an investment in our stock if you do not feel that you can afford it, we would like to see every wage earner and buyer of bread on our friendly list of stockholders -feeling sure that the returns on the investment will prove more than gratifying to them, and be a source of profit as well as pleasure.

We have no apologies or excuses to make, for advertising our special work in a newspaper. We treat a very limited number of aliments. A very larse majority of our patients never tell others a word about their brilliant cures received at our hands. We are especially equipped and strictly up to date in every respect for treating diseases pseuliar to men. We are relieving and permanently curing thousands of men who come to us for hundreds of miles who never would have heard of us without the opportunity of reading our announcements in the papers. No thinking man will dispute the fact that a genuine, first-class specialist can carry an advertisement and still do good, honest work. There is one way to tell a pretender from an educated physician and thorough specialist, have him show you plenty of leading business men and cured patients who will recommend and guarantee him to be just what he claims. We are ready to be judged by this test. We are ready to submit to the most critical investigation of our methods of dealing with patients. We invite any newspaper representative to come to our offices, examine our diplomas, look into the details of our work and publish to the world the facts concerning our ability and standing in Loe Angeles. Salary Only Ten a Week. Arthur Hawks, employed for a number of months by the Tanner Drug Company on South Spring street, was arrested yesterday for having stolen money and goods. Hawks has been might clerk at the store for some time, but recently his employers became the signature of the money and goods. The suspicion brought on an investigation that proved Hawks a thief. Detective Benedict trapped him Sunday night by proffering 4.25 of marked money in payment for goods. Only 90 cents of profiering \$4.25 of marked money in payment for goods. Only 90 cents of the sum found its way into the till. The police later recovered \$150 worth of articles which the young man is alleged to have pilfered. Hawks had \$80 in the bank, having made a deposit of \$50 in one sum on Thursday, though his salary was but \$10 a week. Hawks, who is 23 years old and lives at No. \$35 South Flower street, will be prosecuted for petty larceny.

Oldest Native Daughter Has Crossed the River.

Passing of Mrs. Marie Garcia, Wilmington Indian.

Noted for Her Devotion-Remembered the Awfui Quake at San Luis Rey.

California has lost one of its oldest California has lost one of its oldest native daughters in the passing of the Indian centenarian, Mrs. Marie Lena Garcia, who died in poverfy at Wilmington Saturday. Her life stretched away back into the now misty mission days and spanned the nineteenth cen-tury. In a humble dwelling not far from the site of San Luis Rey Mission the Indian first gaw the light of day 108 years ago. She always remembered the great earthquake which killed her ather and mother and nearly destroyed the walls of that mission. Many years ago—probably after she had matured into womanhood—she left her birthplace and removed to what is now Los Angeles county. She drifted to the Dominguez ranch, the home of the Car-

Decades came and passed, children were born and grew into manhood and womanhood, and still the Indian womwomannood, and still the industry woman, joyously singing the songs which as a girl she had learned in the mission school, kept at her simple work of washing the linen and assisting in the other household operations of the more contentium dwelling near her humble

domicile. She married and her, home was blessed with nine children, but forty years ago there came a great sorrow. Smallpox stalked its pitiless way and, unchecked by the methods way and though the methods was all how the methods are all how the statements of the statement of t

row. Smallpox stalked its pittless way and, unchecked by the methods so well known to modern science, took her husband and all nine of the children. This crushing blow did not overcome her. She sang songs of devotion for the dead and, upheld by her simple faith, believed that all was for the best.

Brighter days came and she was joined to another husband, the late Treadad Garcia. Years passed and in 1901 he died, aged 73. When they had carried him to the grave and Father Curran was repeating the last words the widowed Indian woman, whose ears had lost their keenness and who evidently did not hear and know that the priest was praying, buyet forth into song with one of the aravanzas which she had learned in her girlhood days at the mission. In strange measures and with peculiar candence. She offered her musical prayer for the dead in Indian words. Her sonorous voice effectively stopped the priest in the fulfillment of his offices and the incident made a deep impression on the friends gathered at the burial place.

candence. She offered her musical prayer for the dead in Indian words. Her sonorous voice effectively stopped the priest in the fulfillment of his offices and the incident made a deep impression on the friends gathered at the burial place.

SPENT WHOLE NIGHT IN PRAYER

It was no uncommon thing for the devout daughter of the church to spent half a night in meiodious orisons singing the aravanzas with great unction while flickering candles glorified the inner walls of her modest domicile. When her children had all been taken away she sometimes spent the whole night at her devotions, as she did also once at the wake of an Indian friend. So well had she been schooled at the mission when young that she knew her religion almost perfectly.

In strength in her old age the woman was wonderful. As late as a few months ago she would climb with agility the hill leading up to the Carson house while carrying two buckets of water. She never needed glasses and, up to her last days, could see to thread a needle.

Ten days ago she concluded to go to visit friends in Wilmington. She seemed to realize that she was never again to see the Carsons, who had provided for her in her poverty, and she walked a mile and a half to say good-by. She observed that a member of the family was dressed in mourning, and she at once evinced a deep interest. **God knows best.** she said gently in Spanish as a beam of synapathy shot the surface of the family was fressed in mourning, and she at once evinced a deep interest. **God knows best.** she said gently in Spanish as a beam of synapathy shot the surface of the family say pathy shot she was the said gently in Spanish as a beam of synapathy shot the surface of the family say pathy shot says the said gently in Spanish as a beam of synapathy shot the surface of the family say pathy shot says the said gently in Spanish as a beam of synapathy shot says the said gently in Spanish as a beam of synapathy shot says the said gently in Spanish as a beam of synapathy shot says the said gently in Spanish as a

She observed that a member of the family was dressed in mourning, and she at once evinced a deep interest. "God knows best," she said gently in Spanish as a beam of sympathy shot from her eyes.

Now and then the aged woman would tell of the country that used to be where the bustling Southern California of today now is. Accounts of the days of the carretta drawn by the slow but powerful ox team, and of the later days when horses came into general use were among the reminiscences which she recounted. SMOKING ON HER DEATH BED.
From the Dominguez ranch Mrs. Garcia went to the home of Mrs. Nieves Gomez in Wilmington. Last Tuesday she took to her bed and sank rapidly. She was still smoking cigarettes, to which she was addicted, when the priest came to administer the last antemortem rites.

The funeral took place on Sunday at the Wilmington Catholic Church. Rev. Father Ramon M. Ferrer, priest of the parish of San Pedro, Wilmington, Long Beach and Compton, officiated. Although his duties in other parts of the parish were pressing Father Ferrer went with the lifeless form to the Wilmington cemetery, where the lowering mington cemetery, where the lowering of the body to the place of sepulture was accompanied by ceremonies as grand as might be expected for the burial of a person of high position.

Eighty Union Carpenters go Out for His Revenge.

Big Westland Construction Company Changed to Non-Union Fizm.

About eighty union carpenters em-ployed by the Westland Construction Company, general contractors, went on strike yesterday in various parts of the city to satisfy the personal spite of

a walking delegate.
W. A. Sexton, walking delegate of
the Carpenters' Union, tried to play
the part of Sam Parks. He failed to extort any blood money, and so in his anger sought to cripple the company. Happily this is Los Angeles, and he not only falled to inflict serious damage, but he transformed a large union oncern into a non-union one

Sexton, the understudy of Convict Parks, has been hounding the West-land Construction Company for a long

Sexton, the understudy of Convict Parks, has been hounding the Westland Construction Company for a long time. The company has been one of the largest employers of union builders in the city, has paid the union scale and observed union hours rigidly, and therefore, according to union ethics, has been the preferred prey for the walking delegates. The company has really been considered too easy to be let alone, and broils and grief have been its constant lot.

Last spring, when all the unions in the construction trades were affiliated, the chief walking delegate put through the eight-hour day, extravagant wages, shop rules and about everything else he wanted. The employers were given short notice, and with many unfulfilled contracts with penalties attached, they feared resistance would mean rulnation. The Building Trades Council was disrupted shortly afterward by the scandalous abuse of his power by the walking delegate, but the surrender of the firm gave it no chance for peace. Having exhausted all ordinary means for embarrassing and abusing the firm so friendly to his union, Walking Delegate Sexton hatched up a new scheme. The firm was formerly the Elson & Stone Company, it having been reorganized as a stock company under the name of Westland Construction Company May 1 last. Agitator Sexton managed to purchase on the outside one share of the company's stock. Immediately he began assisiously to spoil for trouble with U. Stone and R. W. Eison, president and secretary, respectively. With each attempt in grew more unreasoning and fierce. Last week he reached the limit. The firm was about to sublet a contract for the inside finishing to a residence. Sexton peremptorily demanded that the firm have the work done by its own union men. The bid of the subcontractors for the work was exactly half of what the cost would be to do it, with their own union men. in accordance with Sexton's outlandish wish. President Stone and Secretary Elson protested against the injustice of the thing, but Sexton was deaf to any reason.

Then

The the significance of Sexton's purchase of one share of stock came out. The walking delegate visited the office of the company. No. 216 Franklin street, and for the first time produced his single share. In an absolutely cold-blooded manner he demanded that President Stone buy this share of stock for \$20 more than the market price he paid for it. Stone positively refused, and denounced the proceeding as blackmail. After a quarrel, in which the men nearly came to blows, Stone ordered Sexton to leave the office of be thrown out. The walking delegate sneaked out, and after two days of cognation, he called his revengeful strike, without any demand being made or any sensible excuse.

refused, and denounced the proceeding as blackmail. After a quarrel, in which the men nearly came to blows, Stone ordered Sexton to leave the office or be thrown out. The walking delegate sneaked out, and after two days of cognitation, he called his revengeful strike, without any demand being made or any sensible excuse.

"That fellow Sexton simply tried to blackmail us, and we would not stand for it," said President Stone last night. "The pretense of demanding that we do not let the sub-contract, which is done by all contractors every day, was simply intended to cover his cheap attempt to extort from us a \$20 piece.

"The fight is now on to the finish. Our establishment is non-union from this day forth. We have treated the unions as fairly as any firm possibly could, and have been shamefully wronged, not once, but many times. Now it is all over.

"Between seventy-five and eighty men, mostly carpenters, quit work on a score of jobs in various parts of the city. We resumed work with non-union men on every job but one. We are advertising for more carpenters, and will be all right in a few days. We have been employing 150 men, our pay roil running as high as \$2000 a week. We have paid carpenters from \$2.50 to \$5 a day, according to their ability, and shall continue to pay men according to their individual worth."

Romerer's injuries are slight. Two of the cuts are each about half an inch long and not nearly so deep, and the other is about the size of

a comma.

The Mexicans, about ten in number, were creating a rough-house in one of their shacks and the neighborhood was aroused. Deputy Sheriff Cleveland caught Romerez just as he was emerging from a strange house where he had sought refuge. Apresa fled, but returned in time for police detectives to nab him. He and Refugio Sanches, a chum, were taken to the Police Station handcuffed after they had given the officers five minutes of ugly flepting. Both are booked on suspicion mending the filing of the proper charge.

There is a wide demand for cheap fuel in Mexico, and the great industrial development that has marked the late years of President Dias's administration has shown the need of such fuel. If the new Scid-meets the expectations of those interested there will be an immediate market in the republic for all the oil that can be produced. A new prospect oil field in Mexico is about to be exploited by California capital. Arrangements are being made, it is reported, for the beginning of operations by a company of \$10,000,000 in a new field now attracting considerable attention, and which is situated in the State of Vera Cruz, about forty miles inland from the Guif of Mexico.

According to the stories of "those who know," the oil in this section is so close to the surface that a large quantities. So far all the good wells that have been drilled in that mediate territory are those that hug the range of fifis, and the Associated with no other facilities than digging pits from twenty to thirty feet deep.

A number of experts have examined the property and have reported on it in the highest terms, saying that the indications for finding valuable deposits are, to say the least, flattering.

C. S. Young, well known in the Kern River field, and in this city, is behind the new venture, and Senator Bard, ex-Senator Eikins of West Virginia, and other prominent men are now investigating the proposition with a view of making investments in an attempt to open up the section.

It has been figured out that this sum should pay all fines during the life of their transmiss.

Several members of the Council did not appear exceedingly anxious to vote for the measure when it was presented yesterday, and their flat may intervence between the -railway officials and the open doors of the city bastile.

Of a sudden great solicitude is expressed by the City Fathers for the comfort and safety of the bicycliats who have been prone to demand a dry strip between the railway tracks as one of their prerogatives. McAleer was the only member of the legislative body who was ready to vote on the measure yesterday. Saveral of the Councilmen said they were not informed. They wanted to read the ordinance carefully, it was, indeed, refreshing to see the close attention to business, and the earnest regard for the city's welfare expressed by the solons yesterday. If there is a typographical error in the ordinance, should it ever appear in print, it will be a wonder. The Councilmen will insist on reading the proof sheets.

After a short debate, during which all the members but McAleer either professed entire ignorance of the matter in hand or remained silent, me ordinance was referred to the Committee on Legislation for a report. Without doubt a great burden of responsibility now rests on the Committee on Legislation, composed of Skilling, McAleer and Farish.

The clerk of the Council made several attempts to read the ordinance to the non-plused legislators yesterday in order to callegithen them, but they would have none of it. The proposed measure is as follows:

Council yesterday against the construction of the proposed athletic particular of the proposed athletic particular of the Third-street tunnel. Nearly 150 owners of property and residents signed the protest. They represent that it will be greatly to the detriment of that section if prize fighting is allowed to center there.

For their part the promoters of the enterprise assure the Council that it is their intention to foster clean sport; that they will build a pavillon to accommodate 8000 people; that it will be available for conventions of all kinds as it is within walking distance of the center of the city; and that it is their intention to furnish the use of the building free for all civic demonstrations.

Thomas Savage, once a Councilman

from "de Ate," appeared at the City Hail yesterday in the interest of the pavilion plan.

The protest was referred to the Committee on Legislation which will grant a bearing to both sides Friday morning at 11 o'clock.

The Hill-street paving ordinance recalls to mind Mme. Adelina Patti. It has been making a farewell tour of the Council for about a year and from present appearances is good for several months yet. Yesterday another ordinance to pave the street from Second to Pico street was passed and this ordinance takes the place of a similar one to pave from First to Pico that preceded it by about ten days. The original petition asked that the street. The paved from First to Pico street. The ordinance was made to read from Second to Pico street. The ordinance was made to read from Second to Pico street. The owners of this block secured a majority of the frontiage and protested out the improvement. Under the Vrooman Act such action acts as a bar to further proceedings for six months. The six months will not expire until December. Bids were received for the paving south of Second street and owing to the rediscovery of the "San Diego decision" were rejected. Then the property owners requested that the next ordinance be made to read from First to Pico as originally intended. This was done. The lawyers found another technicality and the Barber Asphalt Co. declared it would not bid. Consequently, a change was made and at the wid of sixty days bids will be received for paving Hill street from Second to Pico streets.

The report of the Supply Committee with reference to the payment of car fare by city employés was presented and action deferred one week. After stating that a thorough canvass of the situation had been made the committee decides against a system of book transportation on the ground that no reduction in fares could be obtained without placing the city under obligation to the railway company. The report concludes as follows:

"We would, therefore, recommend the use of cards by employés in the street depart Because of the necessity for a large building the Councilmen declare that not more than \$20,000 can be expended in acquiring a site. This decision, if it is final, is equivalent to saying that the High School will go east of Main

the High School will go east of Main street, as no where elses in the city can property be secured at that price of sufficient extent to accommodate the school building.

There are many people, nevertheless, who will be very sorry to see the High School located so far to the southeast, particularly because there are no cross-town car lines.

With her hair streaming and her wild, piercing eyes fixed upon some imaginary audience, Abby Moore, a crazy actress, acted out her last scene in Judge Wilbur's court yesterday. Struggling with the officers who were trying to hold her down, the scene of some old forgotten tragedy came back to her.

The savage hate fading out of her eyes, she sank slowly back into her chair in an attitude of prayer. When she spoke, it was loud and clear and in the measured tones of an actress. Her hands clasped and her head bowed, she began reciting "Hall Mary full of grace." Her voice dyed away. Suddenly she sprang to her feet, her face grown terrible, and raised one hand high above her head in awfui improcation, and cried out her last line. "Executioner, do your duty." He did. Sent her to Highlands. On the stage the woman has usually been known as Abby Lemro. In private life she is Mrs. Moore. The week opened today (Monday) that the movement is heavy, with stocks arriving rather freely. Local creamery is reported barely enough to satisfy a strong demand. Ranch eggs are firm, with receipts

light under an active demand.

Salinas and fancy-grade potatoes are firmly held; other grades move well.

Beans are steady with inclination to weakness; inovements fairly active.

A carload of Julian fruits will arrive tomorrow; prices have not yet been named. Fish enough; poultry in good receipt; lobsters plentiful; game nominal, with some wild geese offered, all of which were cleaned up.

Hay is firm.

Annual Meeting of the Southern California Association-Will Discuss the Labor Problem Today.

Labor Problem Today.

The General Congregational Association of Southern California, which will meet in its annual session today, held its preliminary devotional meeting last night, at the First Congregational Church, Ninth and Hope streets. The service was conducted by Rev. J. A. Cooper, moderator of the association, and the sermion was preached by Rev. W. N. Burr of Pomona.

The subject of Mr. Burr's address was dancing, card playing and the theater. He said that it was time all church members were looking upon these things as worse than mere worldliness.

The association will be organized for business this morning at 9 o'clock, and the attendance promises to be a complete representation of the seventy-nine churches of Southern California. The forenoon will be principally devoted to the reception of reports from the several churches, and in the afternoon there will be something of an innovation in the form of a discussion of the labor question.

Instead of having a report from Rev. Dana W. Bartlett upon the Bethlehem Institution, it has been arranged to have the entire association visit the place at 4:15 this afternoon. Tonight there will be several addresses, including one by Miss Cora L. Tatham, secretary of the Y.W.C.A., her subject being, "The Gospel for the Business Woman."

INVESTIGATING MURDER.

Sheriff Brodnax has returned from the imperial country, where, in company with Deputy District Attorney Andrews he has been investigating the murder of Frank Roberts. The murder was committed the 25th of September, the object, it is supposed, being robbery. It is known that Roberts had considerable money; in fact, about 3399 was found in his shack. Mr. Biodnax found no clews to the murderer, although he spent several days in trying. Roberts had been in the country but a short time, and had no associates. The murder is supposed to have taken place when he came to his temporary shack for the night. After three days a two-horse mule team was decorated as a two-horse mule team was a special property of the country was a supposed to have taken place when he came to his temporary shack for the night. The Pasth Dies.

The Death Dice.

The German Emper r-has just made a most interesting historic presentation to the Hohensollern Museum. It consists of the famous "death dice," by the help of which one of Kaiser Wilhelm's ancestors decided a difficult case about the middle of the seventeenth century. A beautiful young girl had been murdered, and suspicion fell on two soldiers, Ralph and Alfred, who were rival suitors for her hand. As both prisoners denied their guilt, and even torture falled to extract a confession from either. Prince Frederick William, the Kaiser's ancestor, decided to cut the Gordian knot with the dice hox. The two soldiers should throw for their lives, the loser to be executed as the murderer. The event was celebrated with great pomp and solemnity, and the Prince himself assisted at this appeal to divine intervention, as it was considered by everybody, including the accused themselves.

Ralph was given the first throw, and he drew sixes, the highest possible number, and no doubt felt jubilant. The dice box was then given to Aifred, who fell on his knees and prayel aloud: "Almighty God, Thou knowest I am innocent. Protect me. I be seech Thee!" Rising to his feet he threw the dice with such force that one of them broke in two. The unbroken one also showed six on the larger portion, and the bit that had been split off showed one, giving a total of thirteen, or one more than the throw of Raiph. The whole audience thrilled with astonishment, while the Prince exclaimed. "God has spoken!" Ralph, regarding the miracle as a sign from heaven, confessed his guilt, and was sentenced to death. It is probable that Alfred ever after that did not number himself among those who look upon thirteen as an unlucky number.—[London Tattler.

LOS ANGELES, Oct. 12.—{To the Editor of The Times:} The report of the address of Bishop Conaty before the Priday Morning Club on last Friday is another link in the chain of evidence wherein all manner of courtesy has been extended in recent years to the Roman Catholic clergy by Protestant or non-sectarian bodies. I cite a few of these occasions: The addresses made by Bishop Montgomery before the "Ministerial Association of Los Angeles," and the "University of Southern California"—all these addresses were one-sided, if not apologetic, in their character. Now, why will not the "Newman Cub" or the "Truth Society," or some other Roman Catholic representative body invite a Protestant clergy-man or a theologically well equipped layman of Protestant views to address them?

I fall to find the record of a single instance where the authorities of the Roman Catholic church, in Southern California, have ever done this. It is true that in a few instances they have had Protestants address them, but in no case upon church doctrines.

"No quorum" made it impossible to do business yesterday afternoon at " called meeting of the stockholders of the Pacific Electric Railway Company, the Pacific Electric Railway Company, who convened at headquarters at Sixth and Main streets and were compelled to adjourn until Wednesday. H. E. Huntington, president, presided. When asked about the business to come before the body, he declined to discuss the matter and remarked blandly that it is time enough to discuss something when there is something to discuss. "Nothing was done," is the way he summed it up.
"But what did you propose doing?" "Time enough to talk about that after it's done," was the parting shot. From other sources, however, it is

From other sources, however, it is learned that the Pacific Electric Rail-May Company proposes to double its stock. Incorporated for \$10,000,000, the company would increase its capital-ization to \$20,000,000. More working capital is needed by the company. Its active campaign of the last two years has employed quite \$10,000,000, and new work now contemplated will easily require that much more. Any additional stock that may be voted on Wednesday will probably be subscribed by present stockholders, for the company heretofore has not gone into the public market with its stock, although its bond issues are largely held in San Francisco and New York.

The new funds will probably be used in extending the company's lines to

Mr. Huntington's ambiffion is to develop Southern California into the most habitable spot on the globe.

His plans are said to extend as far south as San Diego, and northward—rumor has him as far north as San Francisco. Owners of large ranch properties around San Diego assert that they have glready been approached for right-of-way privileges by agents believed to represent the Huntington-Heilman syndicate.
